Komcept Solutions Ltd

The Company

Komcept Solutions innovate to secure you today and protect your tomorrow.

Vision and Strategy

To provide for the wide range of security needs of organisations.

We constantly innovate and evolve our own products with a rapid development strategy including continual research and product improvement. We develop strategic relationships with key partners and continue to learn from and adapt to their operational requirements.

Company Culture

Our success is built upon the efforts of our employees. We value our employee family who help build our innovative, market-leading products and services, and deliver robust, personal support to our clients. They do this through collaboration with one-another and with our customers, in an open and friendly workplace. We appreciate initiative and autonomy whilst encouraging staff to work together in order to support each other. We have a fail-fast approach to realise any show-stopping tasks early, and learn from this to improve and evolve development cycles.

The Opportunity

We are seeking a full-time software developer to lead our innovative software team, and bring together finished production software to help Governments protect their citizens. As a valued member of staff, you will receive a competitive salary with great working conditions amongst a friendly team. You will have regular personal development interaction with your manager and be encouraged to increase and improve your range of skills through mentoring and external sources of knowledge. Exceptional input and actions are recognised and rewarded in this company.

Benefits

We offer 33 days' annual leave (including Bank Holiday allowance) per year, increasing to 38 days after 5 years' service; flexible working; travel insurance to cover leisure trips for you and your partner & children; a 4% employer contribution to your pension when you deposit an equal amount; and a share scheme that allows us to recognise great attitude and exceptional effort.

Job Description – UI/UX Software Developer/Team Leader

This is a permanent, full-time role, based in our offices in the UK, near Northampton. Due to location would be preferable for the candidate to hold a full driving license.

Komcept has enjoyed a period of rapid growth over the last few years, which has led to this requirement.

The role would be to add both additional resource and some essential skills to our software team in order to enhance software being produced. The candidate should have some experience and drive to lead the software team by coordinating workloads. The role will report directly to the management team.

The role will suit someone with experience in designing user interfaces and understanding how people navigate software. They should have Completer-Finisher qualities.

There is ample opportunity to grow and progress through the business, learning new skills and diversifying in role.

Key Duties to include:

- Writing and maintaining code
- Coordinating team workload, preferably with agile methods
- Maintaining good version control and good practice as a Completer-Finisher
- Assessing and understanding customer needs to contribute towards product design
- Ensuring software testing is undertaken prior to rollout
- Coordinating code-reviews

Required/Essential Skills/Experience

- UI & UX design and build
- C# WPF or equivalent
- HTML/web-based technologies
- GIT-type code repository
- Team leader/coordination/management

Desirable experience

- Video replay/streaming
- SQL/MySQL
- GIS/Mapping

Salary £50-60k
